NOTE: The District cannot accept responsibility for sizes and/or the viability of plant materials as stated by the nursery. All planting material requires commitment to assure survival. Putting plants under stress (i.e. lack of water, planting too deep or too shallow, or a delay in planting) will weaken the plants and lessen survival rates. Do not plant larger trees too close to buildings, sidewalks, driveways or utilities. It is your responsibility to learn proper planting techniques and to select appropriate planting sites. The District cannot be responsible for replacing stock that do not survive.
